Streamlined Category 1 Feed Applications

Webinar April 28, 2022

Canada

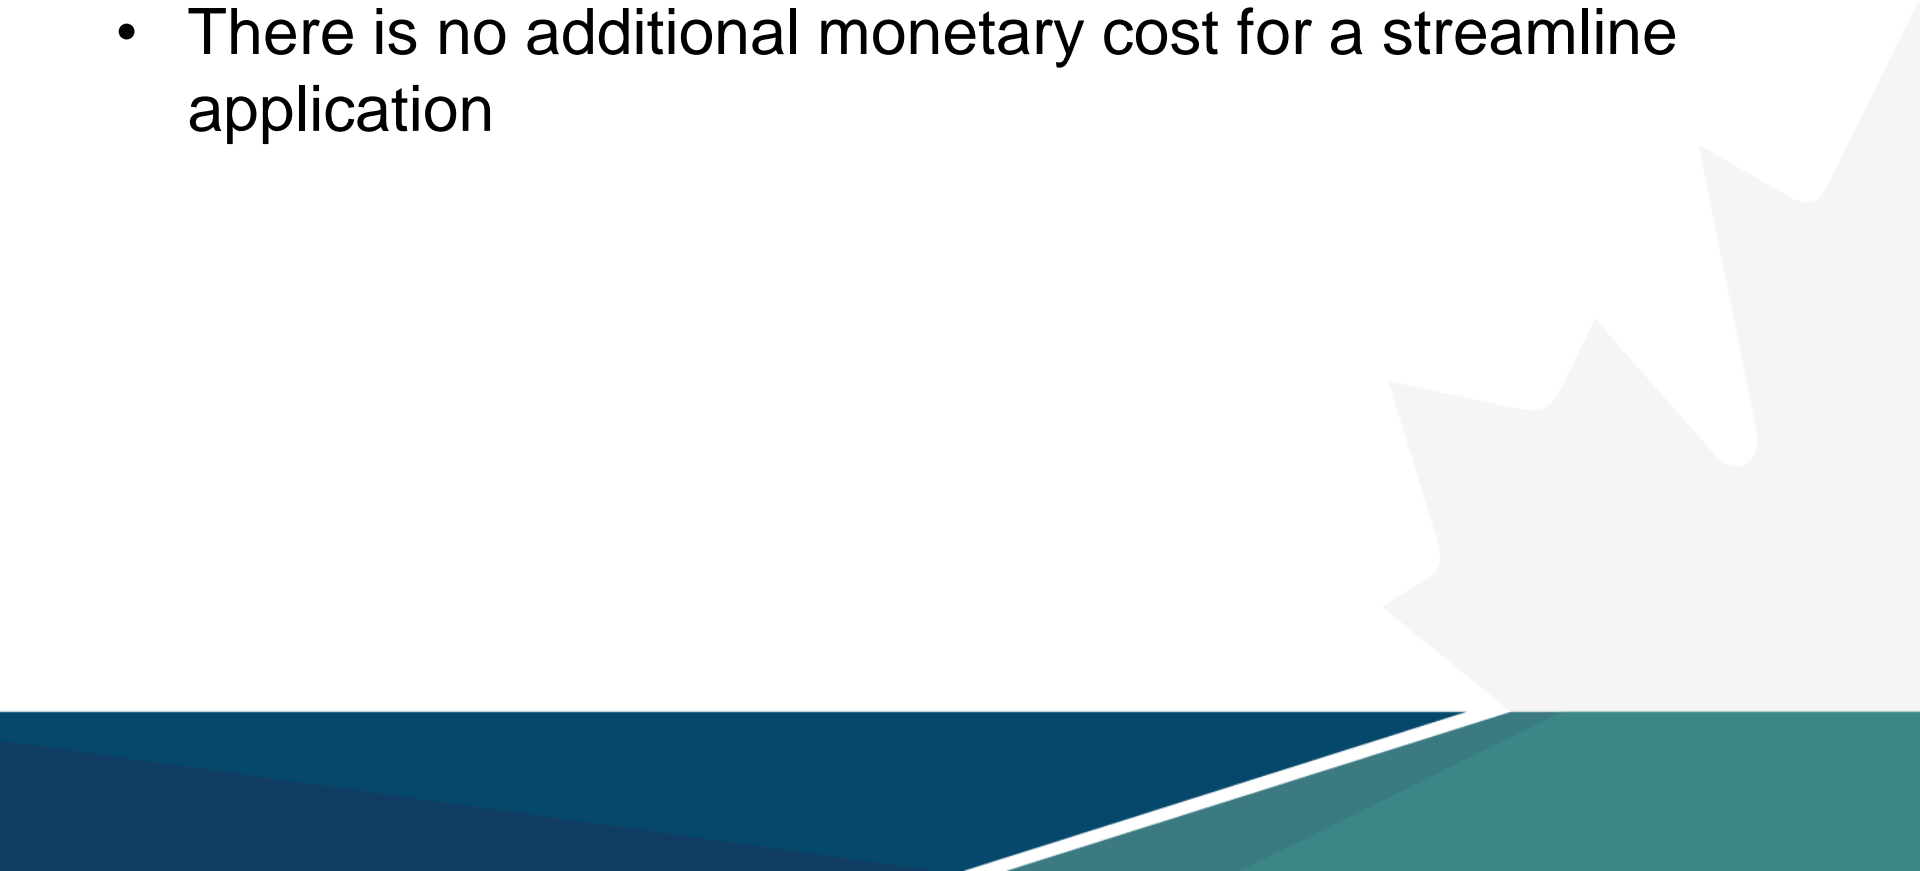

What are Category 1 Feeds

Imported and Domestic

- Standard mixed feeds
 - Complete feeds
 - Supplements
 - Macro- and micro-premixes
 - Mineral feeds
 - Converter feeds
- Simple mixtures of some single ingredient feeds
 - Those listed in categories 1-7

Why Streamline?

- The feed industry and producers will benefit from quicker access to these products
- There is no additional monetary cost for a streamline application

Exclusions

1. Products with claims or additional voluntary guarantees on labels other than those allowed by RG-1 Chapter 4.12 - Permissible claims policy for livestock feed,
2. Imported medicated feeds
3. Free-choice mineralized salts and mineral feeds for ruminants containing added selenium
4. Feeds for mink, foxes, and fish other than salmonids

Normal and Streamline

1. Application submitted to PASO
2. Receives administrative review by PASO
3. Sent for technical pre-screen
4. Accepted into the queue (or returned)
5. Accepted applications enter the review queue
6. Reviewed when it reaches the top of the queue
7. Deficiencies communicated
8. Registered (or returned)

1. Application submitted to PASO identifying their applications meet the streamline requirements
2. Receives administrative review by PASO
3. Sent directly for technical review
4. Registered (or returned)

Streamline Application Content

- Cover letter— indicating that this is a streamlined application
- Application Form
- Application Fee
- Streamline Checklist
- Label (3 copies)
- * For new and all imported feeds - A complete list of ingredients named as per the Schedules IV/V
- * Calculations showing required nutrient guarantees are compliant with Table 4 minimums and maximums
- * If medicated – calculations showing that the directions for use result in a medicated feed compliant with the CMIB

How to Submit

New Category 1 Streamline Applications

- At this time all feed applications including category 1 streamline applications must be submitted through the mail or by courier

Transitioning previously submitted applications:

- Applicants can choose to transition a Category 1 application currently in the queue awaiting review to the streamlined process
- Submit the required streamline documents to PASO (excluding the form and fees already in hand)
- Include the file reference number provided with the file was originally accepted

Guidance

- The guidance will be posted on our website soon
- [RG-1 Chapter 2.0 Process to streamline approvals for category 1 feed registrations](#)

Tools and Examples

Tools hosted by ANAC:
