

## CHECKLIST for streamlined approvals of category 1 feeds

### 2. Simple mixtures and dilutions of single ingredient feeds only containing ingredients listed in schedule IV part I classes 1 to 7

*Products admissible for streamlined approvals are:*

- *Intended to facilitate the addition of ingredients typically included in small quantities to livestock feeds if added alone, like vitamins and minerals*
- *Simple mixtures of feed ingredients like grains, cereals, and/or meals that provide protein and energy (carbohydrate and fats), i.e., macronutrients*

**Brand Name (optional) and Product Name:**

Requirements:	Page # or N/A	CFIA Use
<p>Completed application package per <a href="#">RG-1 Chapter 1 – Administrative Requirements for Pre-market Assessment and Product Registration of Livestock Feed</a></p> <ul style="list-style-type: none"> <li>○ Cover letter– indicating that this is a streamlined application</li> <li>○ Application Form</li> <li>○ Application Fee</li> <li>○ Checklist</li> </ul>		
<p>Label (3 copies) containing the information as per section 26 of the regulations (see list in Appendix 2)</p> <p><b>Note:</b> For simple mixtures and dilutions of single-ingredient feeds from Schedule IV part I Classes 1-7, only label guarantees indicated in the individual single-ingredient feed definitions should be present on the label</p> <p>Some single ingredient feeds allow for identifying the names of pelleting aids, mould inhibitors, anticaking or flow agents used in their manufacture. The names of these may be transferred to the label of these simple mixtures or dilutions of single-ingredient feeds.</p>		
<p><b>Calculations</b></p> <ul style="list-style-type: none"> <li>○ Calculations showing the amalgamation of guarantees being transposed from the single ingredient feeds</li> </ul>		

**Appendix 2 – Label requirements for simple mixtures and dilutions of single-ingredient feeds only containing ingredients listed in schedule IV part I classes 1 to 7**

**Proposed label**

- ☐ Brand name (optional)
- ☐ Feed name/Product name reflecting the purpose of the product and the intended species
- ☐ Guaranteed analysis: amalgamated guarantees as per Schedule IV ingredient definitions directly related to the individual single ingredient feeds contained within the product
- ☐ The complete list of ingredients by generic name as listed in Schedule IV or V of the *Feeds Regulations, 1983*
- ☐ Directions for use to permit safe and effective use of the feed
- ☐ Cautions (if selenium added): All species - "Directions for use must be carefully followed" Ruminants only - "Do not use in association with another feed containing supplemental selenium"
- ☐ Labelling statements as per Schedule IV ingredient definitions directly related to the individual single ingredient feeds contained within the product
- ☐ BSE statement if the feed contains "prohibited material": **"Feeding this product to cattle, sheep, deer or other ruminants is illegal and is subject to fines or other punishment under the *Health of Animal Act.*"**
- ☐ Name and address of the registrant
- ☐ Net amount (weight or volume - metric measure required – other units optional)
- ☐ Registration number (to be added once the feed is registered)
- ☐ Lot number (if applicable)
